

Environmental Policy Statement

fischer CANADA Stainless Steel Tubing Inc. is committed to conducting its manufacturing operations in an environmentally responsible manner. As a responsible corporate citizen, we strive to protect the environment, prevent pollution, and support sustainable development for the benefit of our employees, customers, stakeholders, and the communities in which we operate.

Through the implementation and continual improvement of our Environmental Management System (EMS), we work to minimize our environmental footprint by:

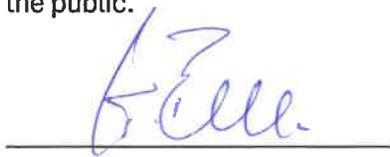

- Reducing waste at the source
- Reusing and recycling materials wherever feasible
- Controlling and reducing process emissions
- Conserving energy, water, and natural resources

We are committed to meeting, if not exceeding, all applicable legal and other compliance obligations, including environmental legislation, approvals, reporting requirements, and stakeholder commitments related to our operations.

fischer CANADA Stainless Steel Tubing Inc. establishes, monitors, and reviews environmental objectives and targets consistent with this policy. We regularly monitor, measure, and evaluate our environmental performance and document results to drive continual improvement of the EMS.

We further commit to the reduction of greenhouse gas emissions through improved energy efficiency, adoption of new and cleaner technologies, and the expansion of sustainability initiatives such as renewable energy projects (including solar panels) and enhanced wastewater treatment systems.

This Environmental Policy provides a framework for setting environmental objectives, is communicated to all persons working for or on behalf of the organization and is made available to the public.

Thomas Prell
Vice President
