

## Environmental Policy Statement

At **fischer CANADA** Stainless Steel Tubing Inc. it is our priority to maintain and improve our Environmental Management System, with the purpose of achieving the highest standards possible relating to environmental protection and sustainability.

We will seek to continually improve our activities, products and processes that affect environmental performance. **fischer CANADA** Stainless Steel Tubing will implement and maintain an Environmental Management System (EMS) which will set objectives for continual improvement, assign responsibilities, communicate effectively, provide training and audit our performance against objectives. Through monitoring and measurement of our environmental objectives we will be able to channel this information back into our EMS and achieve continual improvement of environmental impacts.

We will meet or exceed all relevant compliance obligations that affect the Organization, including laws, regulations and environmental expectations from Interested Parties. We will integrate these applicable environmental requirements and expectations into our activities, products and processes.

We will seek to minimize our consumption of resources by reducing, reusing, and recycling wherever possible with the objective of preventing and reducing pollution and waste.
